Planning summary

Planning Applications

Using Local Authority planning information supplied and processed by Glenigan dating back 10 years, this information is designed to help you understand possible changes to the area around the property. Please note that even successful applications may not have been constructed and new applications for a site can be made if a previous one has failed. We advise that you use this information in conjunction with a visit to the property and seek further expert advice if you are concerned or considering development yourself.

107 **Large Developments**
searched to 500m

Please see [page 3 >](#) for details of the proposed developments.

57 **Small Developments**
searched to 125m

Please see [page 15 >](#) for details of the proposed developments.

6 **House extensions or new builds**
searched to 50m

Please see [page 21 >](#) for details of the proposed developments.

Please note the links for planning records were extracted at the time the application was submitted therefore some links may no longer work. In these cases, the application details can be found by entering the application reference manually into the Authority's planning website.

In order to understand this planning data better together with its limitations you should read the full detailed limitations on [page 34 >](#).

Planning constraints

Protected areas have been identified within 250 metres of the property.
Please see [page 25 >](#) for details of the identified issues.

Environmental Protected Areas Not identified
Visual and Cultural Protected Areas **Identified**

Telecoms

There are mobile masts, mobile phone base stations or planning applications for mobile masts identified within 250 metres of the property.
Please see [page 22 >](#) for details of the identified issues.

Mobile phone masts **Identified**

Large projects searched to 500m

107 large developments within 500m from the property have been submitted for planning permission during the last ten years. Large developments are considered to be residential builds of 10 or more houses (or 1-9 units if value is greater than £1 million) and all other projects with a value of £250,000 or more. Please see below for details of the proposed developments.

Mobile phone masts

There is a mobile phone mast within 122m of the property. See below for details of the mast and its location. Please note that this data may be incomplete or out of date and Groundsure recommends checking for any entries in the Mobile Phone Mast Planned section, as masts added since 2012 may appear there instead.

ID	Distance	Direction	Operator	Type	Antenna	Band	Power(dBW)
L	123 m	W	Three	UMTS	33	2100	18.7
L	125 m	W	T-Mobile	GSM	29	1800	27

Q	146 m	W	Orange	GSM	7	1800	16.2
Q	146 m	W	Orange	UMTS	7	2100	18.2
17	178 m	S	Vodafone	GSM	5	900	2
19	222 m	SW	Vodafone	GSM	5	900	2
W	230 m	NE	Orange	GSM	4.5	1800	16.2
W	230 m	NE	Orange	UMTS	4.5	2100	18.2

This database is taken from Ofcom's Sitefinder database, the Government's database of mobile phone base stations. The last update to this database was applied in May 2012, although some operators ceased providing updates some years before then. Neither Ofcom nor Groundsure can accept any liability for any inaccuracies or omissions in the data provided within Sitefinder. The most recent update is based on the following datasets received at the specified times by Ofcom: O2 (May 2012), Network Rail (April 2012), Hutchison (February 2012), Vodafone (October 2011), Airwave (February 2010), Orange (February 2010) and T-Mobile (August 2005). Sites added since these dates will not appear in the database.

Mobile phone masts planning records

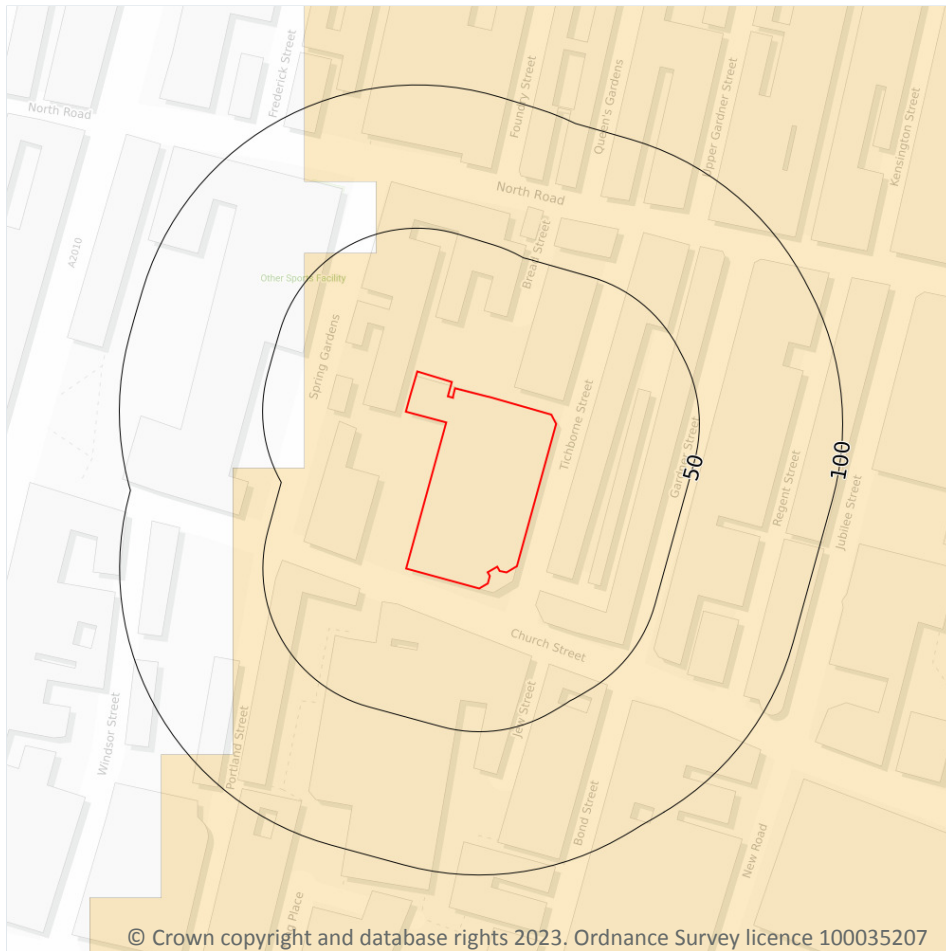

Planning permission has been sought for a new mobile phone mast within 237m of the property.

As this information is normally updated quarterly, the mast could already have been built or may be in the planning stages. Further details on the progress of the application should be available on the Local Authority's planning website.

ID	Distance	Direction	Applicant Detail	Details
X	237 m	S	No Details 14/06/2017 Euro Payphone Limited	Scheme comprises installation of telephone kiosk on pavement.

Radon

The property is in a radon affected area, meaning there is an increased risk that properties will contain elevated levels of radon.

In order to determine if there is a problem at your property, a radon measurement in the building must be taken. Access to a testing service and further information on radon is available from UK Health Security Agency (UKHSA) or www.ukradon.org.

Radon is a colourless, odourless radioactive gas present in all areas of the United Kingdom, usually at levels that pose a negligible risk. However, the property is situated in an area where levels of radon can be much higher and pose a health risk. High levels of radon can cause lung cancer, particularly for smokers and ex-smokers. The higher the level and the longer the period of exposure, the greater the risk.

This data is sourced from the British Geological Survey/UK Health Security Agency.

- National Nature Reserves
- Special Protection Areas (for birds)

Conservation Areas

Conservation Areas exist to protect special architecture and historic interest in an area. It may mean that the property is located in or close to a beautiful or architecturally interesting place to live. There may be extra planning controls restricting some development. This particularly applies to developing the outside of the building and any trees at the property.

Distance	Direction	Name	District
3 m	SW	North Laine	The City of Brighton and Hove
82 m	SE	Valley Gardens	The City of Brighton and Hove
120 m	W	West Hill	The City of Brighton and Hove
164 m	W	Montpelier and Clifton Hill	The City of Brighton and Hove
173 m	S	Old Town	The City of Brighton and Hove

This data is sourced from Historic England and Local Authorities. For more information please see historicengland.org.uk/listing/what-is-designation/local/conservation-areas/ ↗.

Listed Buildings

The presence of listed buildings means there will be extra control over what changes can be made to that building's interior and exterior. If the property itself is a listed building, owners will need to apply for Listed Building Consent for most types of work that affect the 'special architectural or historic interest' of the property and the work approved may increase costs.

Registered Parks and Gardens

Registered parks or gardens are a designed landscape considered of historic interest.

Although the inclusion of a historic park or garden on the register in itself brings no additional statutory controls, local authorities are required by central government to consider registration material in planning terms, so local planning authorities must take into account the historic interest of the site when determining whether or not to grant planning permission.

Air Quality

Modelled Air Quality Readings

Defra publishes Background Concentration Maps of airborne pollutants, nitrous oxides (NO₂ and NO_x) and particulate matter (PM₁₀ and PM_{2.5}), for each year for Local Air Quality Management (LAQM) purposes.

The map for each year is modelled based on air quality monitoring and meteorological data gathered in a reference year. The current reference year is 2018. The maps divide the country into sectors. The concentrations for each sector account for pollution emitted within the sector itself and pollution that arrives from elsewhere, for example blown in by the wind.

The data presented here is the total estimated concentration of each pollutant in the sector that the site resides in, and the air quality objectives for each pollutant, which are taken from Defra's LAQM Technical Guidance document.

Pollutant	Local modelled reading (annual average)	UK Air Quality Objective (annual average)	UK Air Quality Objective (variable)
NO _x	22 µg/m ³	30 µg/m ³	N/A
NO ₂	16 µg/m ³	40 µg/m ³	200 µg/m ³ (per hour - not be exceeded more than 18 times a year)
PM ₁₀	12 µg/m ³	40 µg/m ³	50 µg/m ³ (per 24hr period - not be exceeded more than 35 times a year)
PM _{2.5}	7 µg/m ³	25 µg/m ³	N/A

Notes

Pollutant	Details
NO _x	NO ₂ and NO are both oxides of nitrogen and together are referred to as nitrogen oxides (NO _x)
NO ₂	Nitric oxide (NO) is mainly derived from road transport emissions and other combustion processes such as the electricity supply industry. NO is not considered to be harmful to health. However once released to the atmosphere NO is usually very rapidly oxidized mainly by ozone (O ₃) to nitrogen dioxide (NO ₂) which can be harmful to health.
PM ₁₀	Particulate Matter less than 10µm in aerodynamic diameter. Particles less than or equal to 10 micrometers in diameter are so small that they can get into the lungs potentially causing serious health problems. Ten micrometers is less than the width of a single human hair.
PM _{2.5}	Particulate Matter less than 2.5µm in aerodynamic diameter. Particles less than or equal to 10 micrometers in diameter are so small that they can get into the lungs potentially causing serious health problems. Particles of this size can only be seen with an electron microscope.

Planning data limitations

The planning applications section of this report contains data provided under licence from Glenigan, who are widely recognised in the industry as the market leaders in the collection and distribution of planning information in the UK. Glenigan collects on average 4,000 planning applications per day. As such, neither Groundsure or Glenigan are able to check the accuracy of the information that has been submitted by the applicant. All application information is based on the information submitted at the time of application and due to the volumes and the automated processes involved it is not possible to undertake additional checks to confirm its accuracy. As with any dataset of this size and complexity there are limitations, which are highlighted below.

The planning section in our report is fully automated and Groundsure does not undertake visits to the Local Authority or manually search for planning records against other sources as this would be cost-prohibitive to most clients. With each report, Glenigan provides Groundsure with the location detail for each planning application, which is then published within our report. The method for deriving the location detail depends on the type of planning application.

The location of applications are represented in this report as single points for house extensions and small new builds, small developments and points or polygons for large developments. If an application associated with a small development is shown on the map as a polygon it is because it was once classified as a large development and has since been downgraded. The location of applications is derived from either the grid references provided by the applicant on the planning application form or by address finding software using the site address. If the application is represented by a point, it may not represent the nearest border of the development and may fall outside of the development boundary. If the application is represented by a polygon, we only map the outer extents of proposed developments. Some developments are comprised of multiple areas and in these cases we will show all polygons on the map but only label the one closest to the property. The information contained within this report should be used in conjunction with a visit to the relevant local authority's website to determine the exact location of the development, determine any possible distinctions within the development area, and how this may impact the subject property.

Groundsure has incorporated a dynamic search radius to ensure the most relevant data is presented. This variable search distance is based on House of Commons Library data which categorises areas according to the size of the settlement. Groundsure has distilled these into three core categories. These categories are mega urban, urban and rural and the following search distances apply:

- Mega urban: 250m for large developments, 75m for small developments and 50m for house extensions and small new builds
- Urban: 500m for large developments, 125m for small developments and 50m for house extensions and small new builds
- Rural: 750m for large development, 500m for small development and 250m for house extensions and small new builds

Please note, the search radius assigned to this property is detailed within the planning section of the report.

Due to differing methodologies adopted by Local Authorities, some planning applications identified as having been refused may have subsequently been granted on appeal without appearing as such within this report. As such, if any refused applications are identified within this report, or should the existence or absence of a planning application, consent or similar have a material impact with regard to the decision to purchase a property, the client or beneficiary should make independent thorough enquiries of the Local Authority. Groundsure has excluded certain records of the publicly available data from this report which may have created duplications of reference to the same application. This includes, but is not limited to, data relating to applications such as amendments or variations of planning applications, discharge of conditions, or other associated applications. The report does not contain information on Lawful Development Certificates, Permitted Developments, Prior Approvals, Tree Preservation Orders, and other applications that are considered minor in terms of the level of construction. Additionally, an area of land may be identified for development within the local authority development plan, but for which no formal planning application exists. As such these are not included within the search.

Groundsure provides a web link to individual planning records in this report, but over time Local Authorities may have altered their website structure or record storage and so not all links may still be active. In the case of broken links, customers can use the planning application reference to search the Local Authority planning website manually. Due to data collection methods and processing time, there may be a period of up to 10 days between the application being published on the local authority website and appearing within the Groundsure report.

It is important to note the terms and conditions under which the report was sold, and in particular, whilst Groundsure makes every effort to ensure that data is sourced from reliable providers, it is unable to guarantee that the information is accurate, complete or up to date. Groundsure shall not be liable for any losses or damages incurred by the client or beneficiary, including but not limited to

any losses or damages that arise as a result of any error, omission or inaccuracy in any part of the Groundsure Materials where such part is based on any Third Party Content or any reasonable interpretation of Third Party Content. We recommend checking the contents of the TA6 Property Information Form completed by the seller to determine if any planning applications were revealed. If they were not and you believe this should have been included we recommend discussing this with your conveyancer.

Conservation Area data limitations

Please note the Conservation Area data is provided by Historic England and individual Local Authorities. Due to different methodologies used by different Local Authorities the data may be incomplete. We recommend reviewing your local search for confirmation.

Conveyancing Information Executive and our terms & conditions

IMPORTANT CONSUMER PROTECTION INFORMATION

This search has been produced by Groundsure Ltd, Nile House, Nile Street, Brighton, BN1 1HW. Tel: 01273 257 755. Email: info@groundsure.com ↗. Groundsure adheres to the Conveyancing Information Executive Standards.

The Standards

- Conveyancing Information Executive Members shall act in a professional and honest manner at all times in line with the Conveyancing Information Executive Standards and carry out the delivery of the Search with integrity and due care and skill.
- Compliance with the Conveyancing Information Executive Standards will be a condition within the Conveyancing Information Executive Member's Terms and Conditions.
- Conveyancing Information Executive Members will promote the benefits of and deliver the Search to the agreed standards and in the best interests of the customer and associated parties.

Complaints Advice

If you have a query or complaint about your search, you should raise it directly with the search firm, and if appropriate ask for any complaint to be considered under their formal internal complaints procedure.

If you remain dissatisfied with the firm's final response, after your complaint has been formally considered, or if the firm has exceeded the response timescales, you may refer your complaint for consideration under The Property Ombudsman scheme (TPOs). The Ombudsman can award up to £5,000 to you if the Ombudsman finds that you have suffered actual financial loss and/or aggravation, distress or inconvenience as a result of your search provider failing to keep to the Standards.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to TPOs.

COMPLAINTS PROCEDURE: If you want to make a complaint, we will:

- acknowledge it within 5 working days of receipt
- normally deal with it fully and provide a final response, in writing, within 20 working days of receipt
- liaise, at your request, with anyone acting formally on your behalf

Complaints should be sent to:

Operations Director, Groundsure Ltd, Nile House, Nile Street, Brighton, BN1 1HW. Tel: 01273 257 755. Email: info@groundsure.com ↗ If you are not satisfied with our final response, or if we exceed the response timescales, you may refer the complaint to The Property Ombudsman scheme (TPOs): Tel: 01722 333306, E-mail: admin@tpos.co.uk ↗ We will co-operate fully with the Ombudsman during an investigation and comply with their final decision.
