Date: 16 September 2008
Client Ref: Sample 1 Sampletown

We hereby **Certify** that, based upon historical parish and tithe district boundaries, third party data and the relevant documentation found at the National Archives, the property is within a *tithe district* or Parish that has **no** record of risk of chancel repair liability.

No-one involved in the production of this report has any relationship with any party involved in the sale of the property.

This service is only available for properties in England and Wales. The data used to identify potential risk is derived from an academic study of historical parish boundaries and the relevant documentation pertaining to potential chancel repair liability held at the National Archive. "No record of risk" means: a) no record of risk is held by the National Archive within the relevant Inland Revenue Indices for the subject parish; b) the property is within a parish with evidence of risk but the property is situated within a tithe district that has no risk per the records described above; or c) the record held by the National Archive details that the total liability is held by the Church Commissioners, Cathedrals and/or educational establishments. When purchasing land from any of these parties please enquire with them directly regarding this liability. It should be noted that this service searches against the identified address point of the subject building and not the delineated boundary of the property, in order to establish the location in respect of the relevant historical boundary.

ChancelCheck[®] is provided with the benefit of a Search Insurance policy offering cover up to a market value of £ 2m where a pre-existing matter adversely affects the result of the ChancelCheck[®] provided on the property. A copy of the policy is available on request.

This Certificate is issued subject to the Conveyancing Liability Solutions Limited Terms and Conditions.

WHY PAY OVER £120 FOR A FULL CHANCEL REPAIR SEARCH TO FIND OUT IF YOU HAVE A PROBLEM WHEN YOU CAN SCREEN AGAINST THE POTENTIAL LIABILITY FOR £15 + VAT IF A POTENTIAL RISK IS IDENTIFIED SIMPLY INDEMNIFY WITH CHANCELSURE® INSURANCE

Chancel Repair Liability

Chancel repair liability affects millions of acres of England and Wales and is deemed a necessary and usual search by conveyancers.

New guidance on chancel repair liability issued by the Law Society in the Conveyancing Handbook (13th Edition) clarifies that " **Where the liability is not recorded in the title deeds, consideration should be given as to whether it is appropriate to make enquiries**". Lenders also require solicitors to carry out "all necessary and usual searches".

The recent *Aston Cantlow v Wallbank* has illustrated that the quantum of repairs can potentially be hundreds of thousands of pounds - judgement was for £256,000 with circa £250,000 legal costs. Due to this case, it is now expected that claims will be higher volume but lower in value than this exceptional case. The Church is also actively registering their interest to protect their right to charge chancel repair liability in perpetuity.

ChancelCheck® - Identifies the problem

ChancelCheck® is an online, low cost (£15 + VAT) screening report designed to inform the Homebuyer of any potential chancel repair liability. It is in accordance with the Conveyancing and CML Handbooks.

With **ChancelCheck®** a **Certificate** is issued confirming that there is:

Either no risk identified within the National Archive Records for the relevant parish (or tithe district where possible):
or a **Report** stating that the property is within a risk area.

NB. ChancelCheck® does not publish the relevant parish name to deter contacting the church. Doing so will put The Church on notice of a potential liability and may lead to negating insurance cover.

Screening for a parish level or tithe district level potential risk (at a cost of just £15 + VAT) and then insuring the any potential risk is the most cost effective solution for home owners.

Where a property is affected, conveyancers who have failed to screen for this risk may be deemed negligent.
